October General Meeting:

School District 205 Issues; Expanded Observer Coverage

Thursday, October 22, 7 p.m.
Elmhurst Public Library

New Dist. 205 logo

District 205 is in the news these days as the school Board faces a variety of issues that, in some cases, are dividing our community.

Budget transparency — the 162 South York purchase — the Transition Program — the Open Meetings Act — a new football field at York High School — Freedom of Information requests — these are just a few of the recent areas of concern.

As part of our League's ongoing mission to observe and report on the actions of local government bodies and to promote good governmental practices, we decided late this summer to go beyond our regular *Observer Reports* School Board meetings coverage and take an in-depth look at some of these issues.

At the October 22 meeting League members will share what we have learned so far, and we encourage everyone to participate in a vital discussion of what constitutes open and transparent government.

President's Corner

President Obama's Speech to America's School Children

President Barack Obama scheduled a September 8, 2009, address to the school-children of America, motivating them to do well in school this year. The address was broadcast during the school day to coincide with the beginning of the school year in districts throughout the nation.

In the days leading up to the broadcast, there was considerable media attention given to a nationwide effort to keep the President from speaking to the children. The President was accused of attempting to "indoctrinate" students with his "socialist agenda." I was appalled to discover that anyone would take these assertions seriously and shocked to discover that Elmhurst District 205 was one of the school districts that had not taken a stand against such foolishness.

Here is my email correspondence with District 205 Superintendent Dr. Lynn Krizic. The Board of Education and the LWV Elmhurst Board were copied on each message. *Continued on page 2.*

Email Correspondence Regarding President Obama's Speech to School Children

Here is Laura's email correspondence with District 205 Superintendent Dr. Lynn Krzic. The Board of Education and the LWV Elmhurst Board were copied on each message.

Subject: Community Concern

Dear Dr. Krzic:

A concerned citizen contacted me this late morning asking if I was aware that District 205 does not intend to show President Obama's speech to students when it is broadcast on Tuesday.

I have to admit, if it is the case, I was stunned given the long history of Presidential messages to school children on topics ranging from physical fitness, drug use, and the Challenger Expedition, just to name a few.

Could you please fill me in on what decision was made and the rationale? Our interest in this is keen since, as you know, the League has participated with the District 205 in Citizen Engagement programming, both in and out of the classroom for many years.

Thank you,

Laura Kratz, President, Elmhurst LWV

Laura,

Like you, we have received many phone calls and emails from parents with regard to our intent to show this speech to students. When we received information from Secretary of Education Arne Duncan regarding President Obama's upcoming speech, this information was made available to all of our school principals. Our technology department immediately began to put plans in place to have copies of the

speech made as [there was concern we did not have adequate bandwidth to support a live feed at all thirteen schools.](#)

As part of the tech department's plan, they will be making copies of the speech for use by teachers at all schools. While the speech will not be viewed live, copies of the speech will be available for teacher use as early as Tuesday afternoon since the broadcast has been moved to 11:00 a.m. Central Standard Time.

As part of our communication plan parents will be given notice of the school's intent to show the speech.

Respectfully,

Lynn S. Krzic, Ed.D., Superintendent
Elmhurst Community Unit School District 205

Dear Dr. Krzic:

Thank you for your prompt reply to my inquiry regarding President Obama's speech on Tuesday.

Since writing to you earlier, a League member has forwarded to me the message from her son's school principal explaining how the speech will be presented. He says the school staff will ensure it is "appropriate" before it is shown to students late in the school day. There is no mention whatsoever about insufficient bandwidth for live broadcast.

From these remarks and the recurring mention of phone calls, we can only conclude that District 205 has chosen to bow to the partisan pressure that has been widely documented in the news media over the past several days. We are deeply troubled that our District has decided to ignore a golden opportunity to teach the children of our community one of the cornerstones of American Democracy: respect for all elected officials, regardless of their party affiliation.

Sincerely,

Laura Kratz, President, Elmhurst LWV

Looking ahead...
